

BOONE

This story is one of love, patience, and perseverance...

Jeanette adopted Boone from the Matsu Animal Shelter, and upon adopting him realized that Boone would need a real challenge to focus on, so they began a journey together....here is their story:

A letter from Jeanette:

I don't know if you remember Boone, my shelter dog that I brought to the Doggy Day Picnic this summer (the tall, Rotty, hound, something mix), but we competed in our first AKC Rally trial this past weekend in Anchorage and earned two legs towards his Rally Novice title. He did really well considering these were his first trials – scored a nice 89 and fourth place on Saturday and 96 and second place yesterday. We're entered in the Cook Inlet KC trials November 5 at Raven Hall to (hopefully) earn that third leg and his Rally Novice title.

My goal with Boone is to have him ready for his Beginner Novice obedience title by the spring and continue moving through the ranks of AKC Rally and obedience titles. Boone is really a wonderful dog – great temperament, he loves every person and every dog he meets. He still has some wild hairs and is easily bored but his 5 mile daily walks help to keep him happy.

As you can see....Boone earned his third leg for the Rally Novice title!

Congratulations! Jeanette and Boone!
